## Section-3: Terms of References (ToR)

### TERMS OF REFERENCE (TOR) FOR PAYMENT VOUCHER BASED INTERNATIONAL SKILLS CERTIFICATION TO Potential Migrant Workers

#### 1. Background

##### *The Safer Migration (SaMi) Project*

The Safer Migration (SaMi) project is a bilateral initiative of the Governments of Nepal and Switzerland. Its goal is to ensure that migrants and their families are better protected by concerned Nepali institutions and benefit from decent work conditions abroad. Since its inception in 2011, SaMi aims to increase economic benefits from foreign employment to migrants and their families while mitigating the social costs of migration. It does so by improving access to information, justice, vocational skills, financial literacy and psychosocial counselling for migrant workers and their families. SaMi is currently being implemented under the leadership of the Ministry of Labour, Employment and Social Security (MoLESS) and 156 local governments (LGs) of 39 districts, with Helvetas Nepal providing technical assistance.

##### *Effort in Skilling of Potential Migrant Workers*

SaMi's vocational skilling component aims to impart vocational skills to the prospective migrants who have little or no prior experience in the occupation. It provides them with one-month (equivalent to 208 hours) residential training, with the focus on developing their practical skills. The proposed vocational training enables prospective migrants being hired as helpers to semi-skilled and skilled workers rather than as general laborer, giving them a better chance of career progression<sup>1</sup>.

To address the gap in occupational competencies between existing national curricula prepared by Council of Technical Education and Vocational Training (CTEVT) and competencies required in the destination labour market, SaMi had developed 13 curricula in 2016/17. Additionally, SaMi has technically assisted Foreign Employment Board (FEB) in developing curricula in 5 more occupations through CTEVT in 2020/21. All 18 curricula have been endorsed by CTEVT. SaMi had also collaborated with Snahe Training Institute in UAE to provide Training of Trainers to mason and shuttering carpentry instructors.

##### *Skills Assessment of the Trainees*

Skills assessment and recognition of skills certification is important when it comes to a career pathway. Skills assessment of graduates is conducted through National Skill Testing Board (NSTB), a semi-autonomous vocational skill certification authority under CTEVT, in selected occupations where competencies required in destination countries is aligned with Nepal's National Occupational Skill Standard (NOSS).

However, NSTB awarded skill certificate is not recognized by employers in the destination. Consequently, remuneration would not be reflected as skills premium leading to lower wages and placement in low-skilled job resulting demotivation and deskilling.

Hence, it has become imperative to address the skills assessment and recognition of certification of the migrant workers by introducing international skills assessment and certification as a short-term strategy to

---

<sup>1</sup> A number of tracer studies conducted by SaMi has shown that migrants who have successfully completed the skills training tend to earn on average 20-25% more than unskilled workers and are also more likely to be hired as semi-skilled or skilled workers in their second, third or fourth migration cycle.

fulfil the gap until mutual skill certificate recognition between labour sending and labour receiving countries can be institutionalized.

### ***Interest of the Nepali Labor Migrants***

Many Nepali labour migrants especially from the hills with primary/secondary education prefer to go in scaffolding occupation. Scaffolding is the only occupation in which even the illiterate worker with little command in language can work as a scaffolder as it is done in a group (mostly with same nationals) with a supervisor guiding them. Also, this occupation fetches more wages than other occupations if goes as unskilled or semi-skilled worker. Internationally certified Nepali scaffolders are much in demand in the GCC oil and gas sector since Nepalis are diligent and are not afraid to perform difficult work.

On the other hand, with the increase in the destination labour market demand for the workers in the hospitality sector, those with some levels of education are interested to work this sector since the work is done inside the building and much easier than construction work. For hospitality work, the employers prefer the workers with low/semi-skilled workers having a recognized vocational skill certification.

### ***Recognition of International Certifications in Destination Countries***

With change in time, the destination for labour migration of the Nepali workers is also changing. Based on the Countries of Destination (especially GCC, Malaysia and other foreign countries) labour market, an international certification "Construction Industry Scaffolders Record Scheme (CISRS)" has been identified to help Nepali migrants earn better than those without it.

CISRS has been the recognized qualification for the scaffolding sector for over 40 years in the GCC oil and gas sector. CISRS is now being made available worldwide via the CISRS Overseas Scaffolder Training Scheme (OSTS). Courses range from Level 1 (L1) for new entrant to Level 4 for Advanced scaffolders. SaMi intends to provide L1 course which comprises of 5 days orientation with assessment.

## **2. Scope, and implementation modality**

### ***Overview***

In order to increase economic benefits from labour migration for Nepali migrant workers and their families, SaMi want to encourage migrant workers to have their skills assessed and certified through an internationally accredited assessment centers. To this end, SaMi will partially cover the cost.

The international skills assessment and certification for Migrant Workers interested in the scaffolding occupation would be through CISRS (Level 1).

The target for this initiative is approximately **200 potential migrants from all over Nepal** in the FY 2021/22.

### ***Payment Modality***

SaMi will employ an innovative outcome-based financing model for payment as detailed below.

- Assessment Centers (AC) will receive the payments for only those candidates that successfully pass the orientation and are certified.
- Candidates who pass the assessment and receive the certification are required to pay NPR 20,000 of the orientation and assessment cost. **Candidates who do not pass, do not pay the AC.**
- For woman or Dalit candidates, SaMi will subsidize further 25% of the MW's contribution amount. For example, if non-dalit Men is required to pay full contribution i.e. NRs.20,000, whereas Women or a Dalit candidate would only need to contribute NRs.15,000 and remaining NRs.5,000 will be contributed by SaMi.
- The remaining cost would be covered by SaMi through a payment voucher at the bidder's bid rate. SaMi will only pay when a person is certified. The bid rate should cover the AC's cost for successfully completing the assessment including pre-assessments, orientation, selection, testing, certification, food and accommodation, etc.
- SaMi would pay additional NRs.1500 for every Woman or Dalit who pass the assessment.
- The table below illustrates the above bullet points in a tabular format.

Description	Rate	To be filled by
<b>Bid Rate (A)</b>	NRs. ....	To be filled by bidder
