Implemented by:

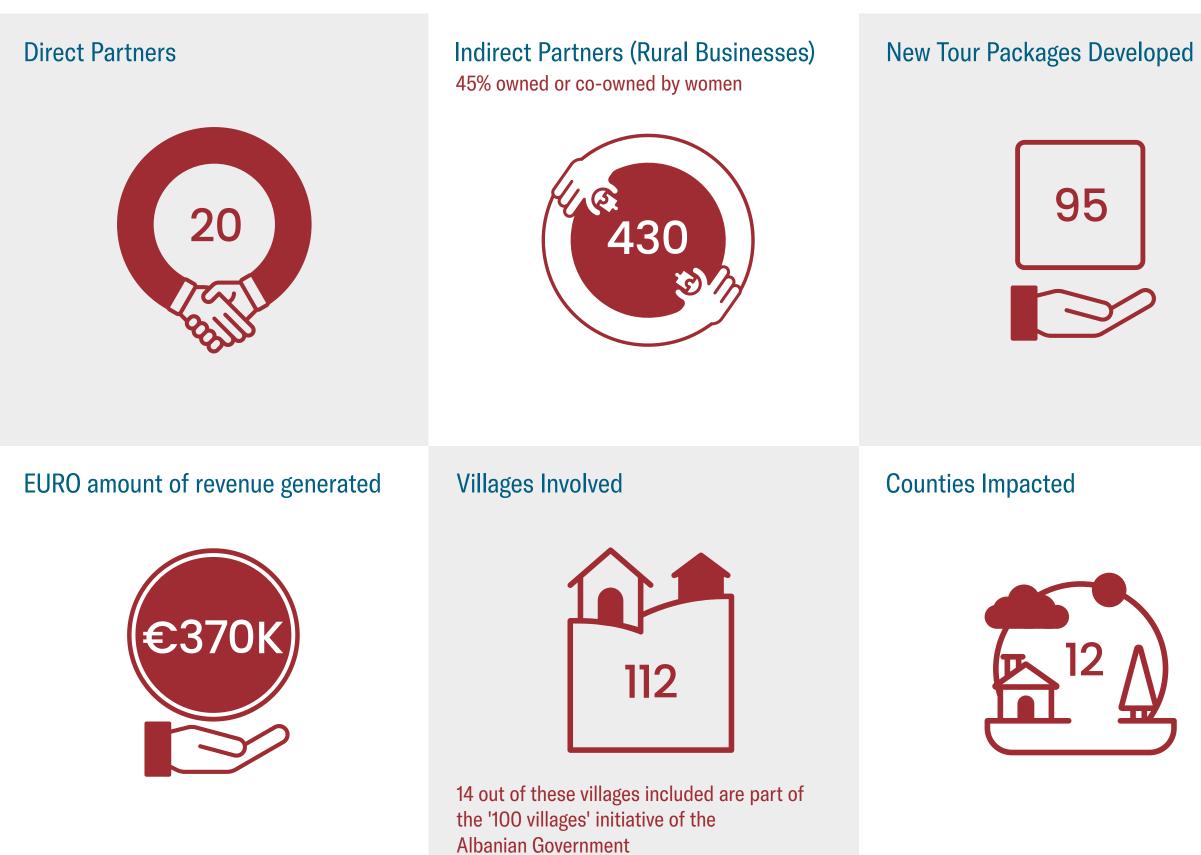

# SUSTAINABLE PARTNERSHIPS ESTABLISHED BETWEEN **TOUR OPERATORS AND LOCAL COMMUNITIES**

**Tourists Welcomed** 

Full Time Jobs Equivalent 49% for women

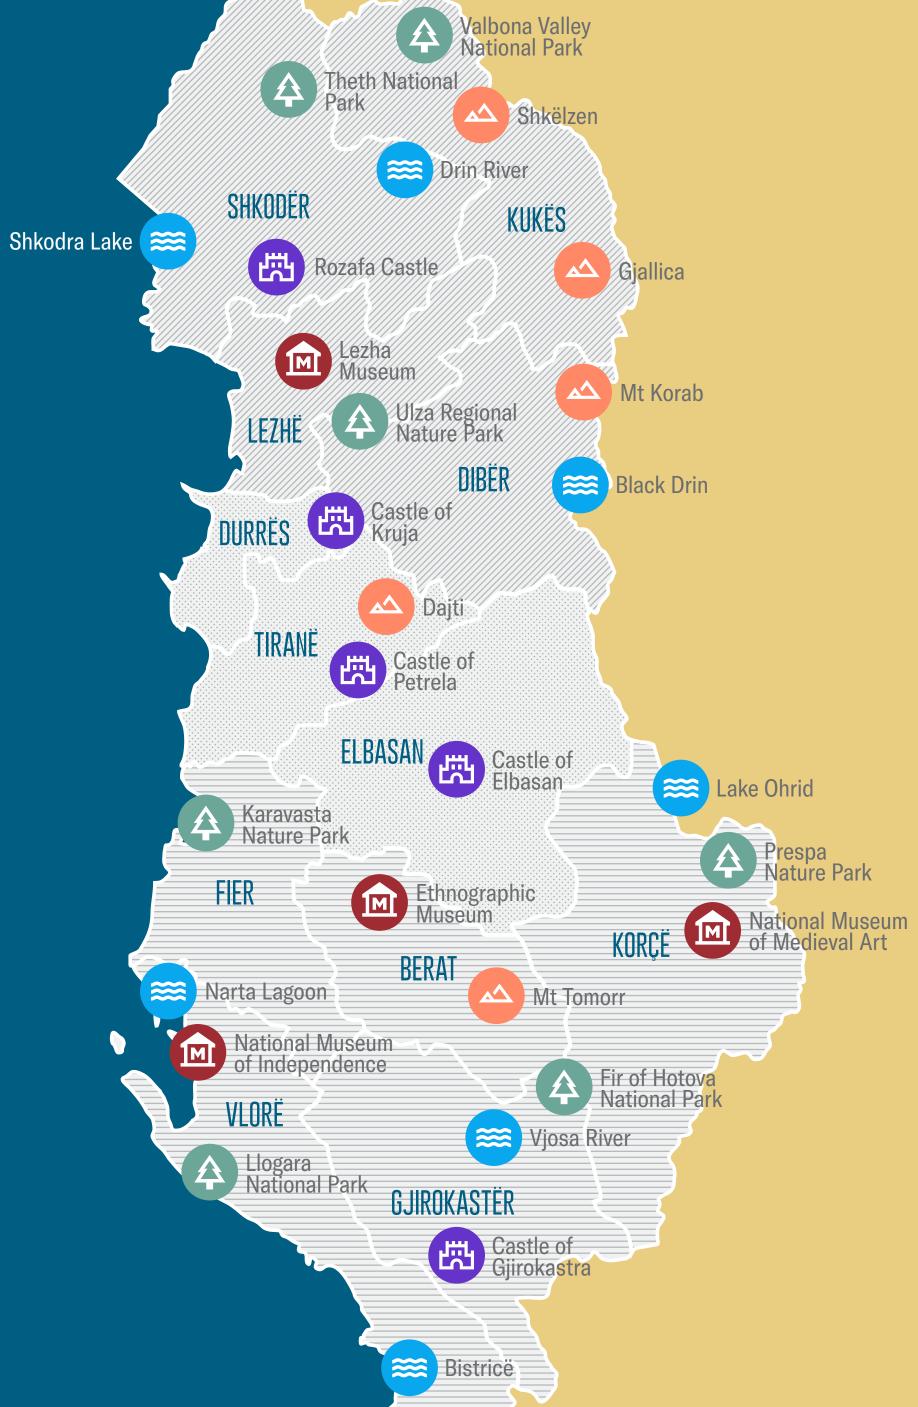

## Investment Leveraged in EURO

EUR amount of revenue generated among rural businesses

PROJECT STATS

# **WHERE ARE WE WORKING?**

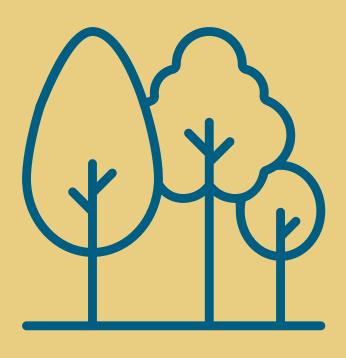

World Travel & Tourism Council estimates that this sector will employ 6% of the total workforce in Albania by 2025.

Risi's interventions in the tourism sector these 8 years, seek to reduce the seasonality of the sector and promote sustainable tourism that has a great potential for qualitative growth in the country.

> Through promotion of innovative alternative tourism offers in national, regional and International markets we increase the opportunities for local businesses to grow and to create new jobs.

# WHAT IS SUSTAINABLE TOURISM?

## SUSTAINABLE TOURISM IS THAT TYPE OF TOURISM THAT MAXIMISES BENEFITS AND MINIMISES NEGATIVE IMPACTS ON:

## THE ENVIRONMENT

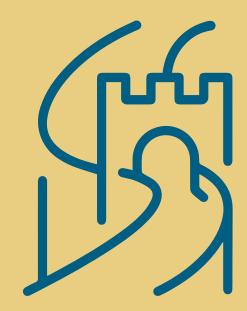

Protecting natural environments, wildlife and natural resources, and minimising waste and negative contributions to global climate change.

Contributing to employment and income generation in local communities but avoiding over-tourism and over-reliance on tourism.

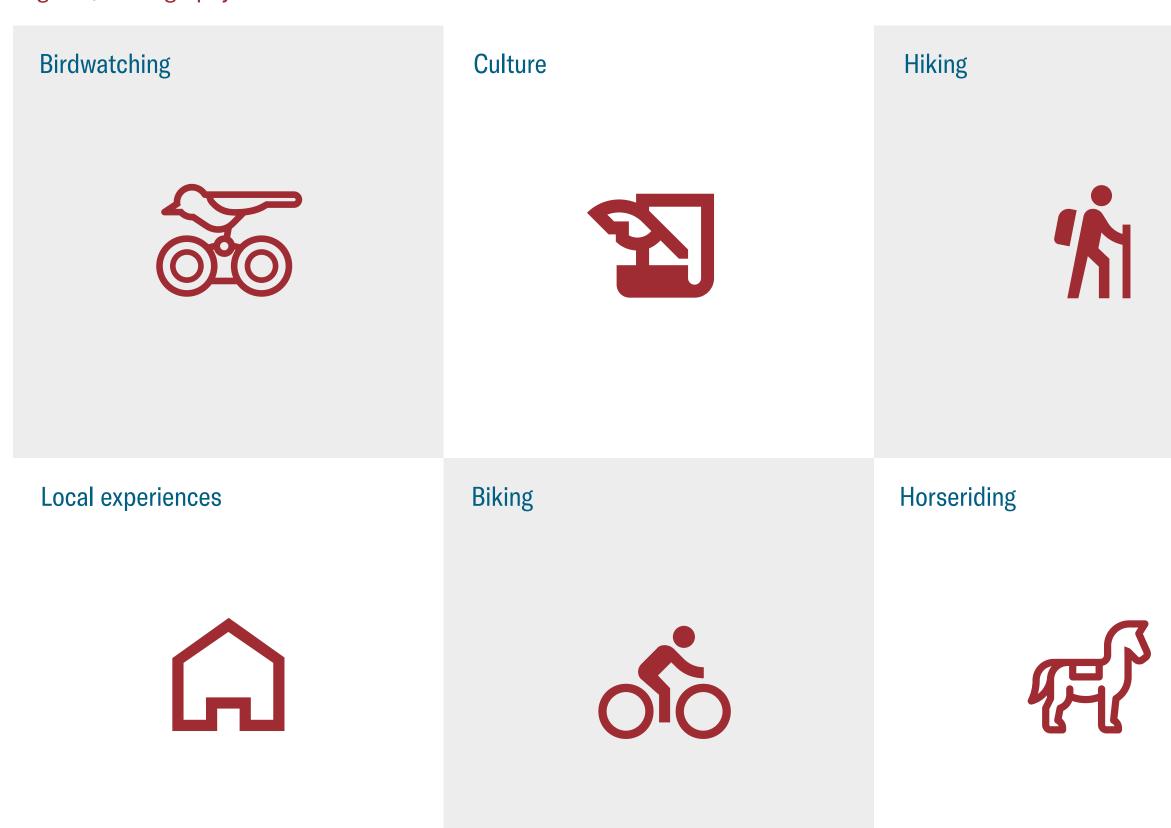

## LOCAL SOCIETY AND ECONOMIES

## LOCAL CULTURE AND HERITAGE

Respecting and celebrating culture and contributing to the preservation of cultural diversity and the conservation of cultural heritage.
